

## **AJ Wednesday Open Jam - Handout no: 9**

### Chords in the key of F major

Hello everyone.

Hope you all are safe and well

For this handout I'd like us to look at the chords in the key of F major

Then look at a song in the key of F major – Long Tall Sally by Little Richard. (please see additional handout '*Long Tall Sally by Little Richard*')

### Chords in the key of F major

**I** F major (F)

**II** G minor (Gm)

**III** A minor (Am)

**IV** B-flat major (Bb)

**V** C major (C)

**VI** D minor (Dm)

**VII** E diminished (Edim or E<sup>o</sup>)

Please see additional handouts for guitar, keyboard, Ukulele chords and Bass guitar note diagrams to see how they are played.

I choose the Long Tall Sally by Little Richard as not only is it a brilliant song, and a great example of the basic **I, IV, V (1, 4, 5)** classic Rock n Roll / Blues / RnB chord progression, but also because Little Richard passed away earlier this year – aged 87 - and it's a good opportunity to celebrate his long and productive live.

Hope you enjoy this song and have some fun with the chords in F major. I'll be back with another handout soon.

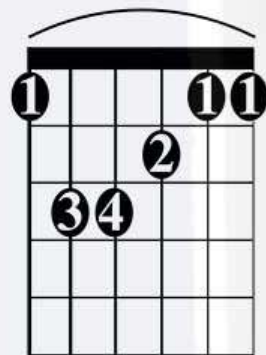

Until then take care.

Stay safe!

AJ
