Pick your Patterns!

Have a look around your home or the place you're staying and find the patterns that you are drawn to!

Draw them!

I found it enjoyable to draw the patterns I chose out as line drawings in pencil. When I finished the outlines I coloured them in. I made a few mistakes and changed the colours slightly. I loved really looking at patterns I've seen for years but never studied so closely.

I hope you enjoy this!

Now that I've done these, I keep noticing patterns everywhere.

I look forward to seeing your patterns and hearing about where you found them.

Best wishes,

Molly
